

# Trent Currie

Senior Software Engineer | Brooklyn, NY

949.439.0388 | [trentdcurrie@gmail.com](mailto:trentdcurrie@gmail.com) | [linkedin.com/in/trentdcurrie](https://www.linkedin.com/in/trentdcurrie) | [github.com/trentcurrie](https://github.com/trentcurrie)

*Full-stack engineer with frontend focus, 5+ years building performant web applications. Focused on developer experience, AI-integrated workflows, and scalable platform architecture.*

## SKILLS

---

**Languages:** JavaScript, TypeScript, Python, SQL, HTML/CSS

**Frameworks:** React, Next.js, NestJS, Flask, LitElement, Tailwind

**Tools & Patterns:** Git, Web Components, SSE, WebSockets, RAG Architecture, MCP

## WORK EXPERIENCE

---

### OMNICOM

*Remote*

*Senior Software Engineer | Feb. 2026 – Present*

*Software Engineer | Oct. 2023 – Feb. 2026*

*Junior Engineer | Mar. 2021 - Oct. 2023*

- Architected a **real-time AI** brand insights engine (Next.js, NestJS) and **context-aware chatbot**, using **SSE** for unidirectional streaming and a unified TypeScript stack to **maximize cross-team velocity**.
- Built Omni Foundations, a shared platform wrapper providing navigation, auth, theming, and client context — enabling teams to scaffold new applications with **production-ready infrastructure** out of the box. Deployed across **thousands of agency and client accounts**.
- **Spearheaded AI-driven development standards** across multiple teams, authoring org-wide prompt engineering guides **adopted by 100+ engineers**. Enabled AI-assisted code reviews and **drove test coverage to 80%+** across key repositories.
- Led technical requirements gathering across product, design, and backend teams, defining UI/UX patterns and component contracts that **aligned frontend architecture with workflow needs**.
- Designed RESTful APIs (Python/Flask, PostgreSQL) optimized for frontend consumption, modeling complex campaign data relationships to support dynamic filtering, creation workflows, and real-time UI updates.
- **Owned development of Omni Tidbits**, an internal content-sharing SPA for cross-agency collaboration on campaign insights — owning technical decisions from data modeling through **deployment across Omnicom's agency network**.

### SRS REAL ESTATE PARTNERS

*Newport Beach, CA*

*Senior Analyst | 2016 – 2020*

- Served as Interim Director of Finance, managing a cross-functional team of 12 across analytics, design, and marketing while overseeing financial operations.

## PROJECTS

---

### CRE OM BUILDER | AI Powered Offering Memorandum Generator

*Tech Stack | React Router 7 (SSR), TypeScript, PostgreSQL/Prisma, Docker/Fly.io*

- Generates offering memoranda in minutes via async pipeline that enriches inputs with external market data and drafts narrative + composes images via schema-validated AI generation
- Designed core relational model informed by years of building 100s of offering memoranda by hand

## EDUCATION

---

**University of Southern California** | B.S. Business Administration

*Class of 2015*

## INTERESTS & EXTRACURRICULARS

---

Pickleball | Trivia | PC Gaming | Wine | Special Olympics | Dungeons & Dragons | Magic the Gathering
