

Trent Currie

Software Engineer | Brooklyn, NY

949.439.0388 | trentdcurrie@gmail.com | [linkedin.com/in/trentdcurrie](https://www.linkedin.com/in/trentdcurrie) | github.com/trentcurrie

Full-stack engineer with frontend focus, 4+ years experience building internal tooling and performant interfaces. Passionate about dev experience and exploring intelligent automation.

SKILLS

Languages: JavaScript, Typescript, Python

HTML, CSS, LitElement, Web Components, React, PostgreSQL, Git, RAG Architecture, CoPilot, MCP

WORK EXPERIENCE

ANNALECT

Remote

Software Engineer | Oct. 2023 - Present

Junior Engineer | Mar. 2021 - Oct. 2023

- **Spearheaded the redesign of the Omni platform's core navigation** system to modernize the UX/UI, enhancing the user journey and streamlining the workflow across integrated tools
- Designed and implemented RESTful APIs using Python (Flask) and PostgreSQL specifically to **power dynamic front-end features** and support the sophisticated data requirements of marketing campaign creation
- **Led the development of Omni Tidbits**, a standalone Single Page Application (SPA) designed for marketing content aggregation, filtering, and collaboration, directly supporting campaign ideation and creation
- Developed reusable, framework-agnostic UI components using LitElement, TypeScript, and JavaScript to **ensure a cohesive and high-quality user experience** across the entire Omni marketing platform
- **Proposing and piloting Copilot usage standards** across repositories to improve code quality, onboarding efficiency, and developer productivity —demonstrating expertise in **adopting intelligent automation** to optimize engineering processes

SRS REAL ESTATE PARTNERS

Newport Beach, CA

Senior Analyst | 2016 – 2020

- **Led and managed a cross-functional team of 12 employees**—including junior analysts, graphics designers, and marketing personnel—while serving as **Interim Director of Finance**.
- **Produced critical financial analysis and authored marketing materials** for brokers, including detailed **Offering Memorandums (OMs)** and Brokers' Opinion of Value (BOVs)

PROJECTS

CRE OM BUILDER | AI Powered Offering Memorandum Generator

Tech Stack | Next.js, OpenAI, Agent

- Leveraging OpenAI's API to dynamically generate marketing copy, financial summaries, and maps from user provided structured inputs
- Explored structured prompt engineering and user input sanitization for reliable, repeatable results

EDUCATION

University of Southern California | B.S. Business Administration

Class of 2015

CodeSmith Full-Time Immersive | *Coding Bootcamp*

Q4 2020
